- 45% Democrat Dana Balter
- 28% Republican John Katko
- 27% Not Sure

Methodology

The survey of 500 Registered Voters in New York-24 was conducted online by RMG Research, Inc. from July 29-August 4, 2020. Respondents were selected at random from voter lists and through a Random Digital Engagement process. Certain quotas were applied, and the overall sample was lightly weighted by gender, age, race, education, and political party to reasonably reflect the district's population of Registered Voters. Other variables were reviewed to ensure that the final sample is representative of that population.
